

# Table of Contents

---

From the Workshop Chair .....	1
Introduction and Summaries.....	3
Reports of the Working Groups .....	33
Complex Materials .....	33
Magnetism and Magnetic Materials .....	53
Polymers, Biomaterials, and Soft Matter .....	90
Nanostructures and Special Opportunities in Semiconductors .....	101
New Directions in Surface and Interface Science .....	115
The Environmental and Earth Sciences .....	148
Biosciences .....	175
Protein Crystallography .....	175
Soft X-Ray Microscopy: Advances and Opportunities in Cell Biology.....	185
Biological and Chemical X-Ray Spectroscopy .....	196
Atomic, Molecular, and Optical Physics .....	199
Chemical Dynamics .....	215
Appendices .....	230
A. The ALS as a Source of Intermediate-Energy X Rays .....	230
B. Workshop Program .....	240
C. List of Workshop Attendees .....	248
